

Your first seven days of practice

Free. English and French. Start without an account.

A flexible starting point, not a guarantee of passing. Spend more time on topics you find difficult.

1

Start with the official guide

Read Discover Canada and try a short mixed practice session.

2

Rights and responsibilities

Read the relevant chapter. Explain each answer in your own words.

3

History and people

Connect important events, dates and people to the guide.

4

Government and elections

Review how government works and how citizens participate.

5

Geography, economy and symbols

Review regions, provinces, territories and national symbols.

6

Revisit difficult questions

Repeat missed questions and read the explanations.

7

Try a timed mock test

Review the results, then plan another week around your weak topics.

After each session

- ☐ I can explain my mistakes.
- ☐ I know which chapter to reread.
- ☐ I have chosen my next practice session.

Open the free practice website

citizenshiptestonline.ca

589 practice questions, explanations and timed mock tests.
